

Publications : : 2005

416. G.E. Totten, N. Gopinath, and L.C.F. Canale, "Heat Treating 2005 – Quenching Technology: Current Technology Advancements", Proceedings of ASM International Pune Chapter Heat Treat Show and Technical Conference, 21-23 February, 2005, Pune, India, pp. 4-15.
417. G.E. Totten and N. Gopinath, "Fluid Sensors for Quench Baths", Proceedings of ASM International Pune Chapter Heat Treat Show and Technical Conference, 21-23 February, 2005, Pune, India, pp. 16-25.
418. G.E. Totten, R.J. Bishop Jr., R. Suzuki, and Y. Tanaka, "Applications and Operation of the Novel Bubble Eliminator Device for Deaeration of Hydraulic and Turbine Oils", Proceedings of the 50th National Conference on Fluid Power, March 16-18, 2005, Las Vegas, NV, National Fluid Power Association, Milwaukee, WI, Paper Number NCFP 105-13.2
419. R.J. Bishop Jr. and G.E. Totten, "Hydraulic Fluid Cavitation and the Micro-Diesel Effect: An Overview of Mechanisms and Associated Fluid and System Damage", Proceedings of the 50th National Conference on Fluid Power, March 16-18, 2005, Las Vegas, NV, National Fluid Power Association, Milwaukee, WI, Paper Number NCFP 105-17.3
420. L.C.F. Canale, G. Xu, H. Liang, J. Liu, and G.E. Totten, "Surface Engineered Coatings and Surface Additive Interactions for Boundary Film Formation to Reduce Frictional Losses in the Automotive Industry: A Review". SAE Technical Paper Series, Paper Number 2005 – 01 - 2180, Rio de Janeiro ,Brazil, May, 2005.
421. L.C.F. Canale, K. Funatani and G.E. Totten, "Lubrication Applications of Coat Forming Additives", SAE Technical Paper Series, Paper Number 2005 – 01-2181, Rio de Janeiro ,Brazil, May, 2005.
422. L. de C.F. Canale, M.R. Fernandes, S.C.M. Augustinho, G.E. Totten and A.F. Farah, "Oxidation of Vegetable Oils and its Impact on Quenching Performance", Int. J. Materials and Product Technology, 2005, Vol. 24, No. 1-4, p. 101-125.
423. L. de C.F. Canale and G.E. Totten, "Overview of Distortion and Residual Stress, due to Quench Processing – Part I: Factors Affecting Quench Processing", Int. J. Materials and Product Technology, 2005, Vol. 24, No. 1-4, p. 4-52.
424. W. Gestwa, M. Przylecka and G.E. Totten, "Use of Aqueous Polymer Quenchants for Hardening of Carbonitrided Parts", Int. J. Materials and Product Technology, 2005, Vol. 24, No. 1-4, p. 126 -141.
425. M. Grenier. R. Gingras and G.E. Totten, "Rapid Stress Relief and Tempering", Gear Solutions, 2005, May, p. 26-33.
426. L.C. F. Canale and G.E. Totten, "Vegetable Oil Based Quenchant Compositions: A Review of Fluid Chemistry and Quenching Results", in Proceedings of 2nd International Heat Treatment and Surface Engineering in Automotive Applications, Eds. S. Gallo, B. Liscic and P.L. Antona, 2005, Riva Del Garda, Italy, Associazione Italiana di Metallurgia, Milano, Italy, Paper No. 009.
427. L.C.F. Canale, A.C. Canale, M.R. Fernandes, S.C.M. Augustinho, G. S. Sarmiento and G.E. Totten, "Evaluation and Impact of Oxidative Stability on The Quenching Performance of Castor Oil and Soybean Oil", in Proceed. of 2nd International Conference on Heat Treatment and Surface Engineering in Automotive Applications, Eds. S. Gallo, B. Liscic and P.L. Antona, 2005, Riva Del Garda, Italy,

Associazione Italiana di Metallurgia, Milano, Italy, Paper No. 010.

428. N.I. Kobasko, M. A. Aronov, J. A. Powell, L.C.F. Canale, and G.E. Totten, "Improved Production of Automotive Parts by Intensive Quench Processing", in Proceed. of 2nd International Conference on Heat Treatment and Surface Engineering in Automotive Applications, Eds. S. Gallo, B. Liscic and P.L. Antona, 2005, Riva Del Garda, Italy, Associazione Italiana di Metallurgia, Milano, Italy, Paper No. 012.
429. N.I Kobasko, L.C.F. Canale, and G.E. Totten, "Improved Production of Steel Parts by Intensive Quenching", in 1st International Conference on Heat Treatment and Surface Engineering of Tools and Dies, Eds. B. Smoljan, H. Jäger, and V. Leskovšek, 2005, Croatian Society for Heat Treatment and Surface Engineering, Zagreb, Croatia, p. 69-76.
430. L.C.F. Canale, An Junqi, G.E. Totten, X. Yao and V. Li, "Energy Saving by an Accelerated Carburizing Process: A Review", 60o Congresso Annual Da ABM/60th Annual Congress, July 25 to July 28, 2005 - Belo Horizonte, Brazil, pp. 3199-3208.
431. L.C.F. Canale, G.S. Sarmiento, G.E. Totten, I. Felde, and R.N. Penha, "Effect of Vegetable Oil Oxidation on The Ability to Harden AISI 1045 and 4140 Steel", 60o Congresso Annual Da ABM/60th Annual Congress, July 25 to July 28, 2005 - Belo Horizonte, Brazil, pp. 3209-3217.
432. L.C.F. Canale, J.C. Vendramim, G.E. Totten, and E.W. Merheb, "Redução Ou Substituição Dos Ciclos De Cementação Usando O Processo De Têmpera Intensiva", 60o Congresso Annual Da ABM/60th Annual Congress, July 25 to July 28, 2005 - Belo Horizonte, Brazil, pp. 3238-3245.
433. G.E. Totten and L.C.F. Canale, "Polymer Quenchants", in Encyclopedia for Materials; Science and Technology, Eds. K.H.J. Buschow, R.W. Cahn, M.C. Flemings, B. Ilshner, E.J. Kramer, and S. Mahajan, 2005, Elsevier, Oxford (MS 2036).
434. G.E. Totten, L.C.F. Canale and H. Liang, "Hydraulic Cavitation from a Sonomaterials Perspective: A Review", SAE Technical Paper Series, Paper Number 2005-01-4173 E, Sao Paulo, Brazil, November, 2005.
435. L.C.F. Canale, G.E. Totten and An Junqi, "An Accelerated Carburizing Process", SAE Technical Paper Series, Paper Number 2005-01-4174 E, Sao Paulo, Brazil, November, 2005.
436. R.N. Penha, L.C.F. Canale, G.E. Totten and G.S. Sarmiento, "Simulation of Heat Transfer Properties and Residual Stress Analysis of Cooling Curves Obtained From Quenching Studies", SAE Technical Paper Series, Paper Number 2005-01-4178 E, Sao Paulo, Brazil, 2005.
437. L.de.C.F. Canale, M.R. Fernandes, S.C.M. Agostinho, G.E. Totten and A.F. Farrah, "Oxidation of Vegetable Oils and its Impact on Quenching Performance", Jinshu Rechuli, 2005, Vol. 30, No. 8, p. 66-80.
438. M. Grenier. R. Gingras and G.E. Totten, "Rapid Tempering Process", Furnaces International, 2005, September/October, p. 16 and 18.
439. D. Poteet; G.E. Totten and L.C.F. Canale, "Basic Principles of Quench System Design For Induction Hardening", Conf. Proceedings ASM Heat Treating Society Conference & Exhibition, September 25-28, 2005, Pittsburgh, PA.
440. B. Smoljan, D. Iljkic, N. Tomasic, I. Felde, G.E. Totten, and T. Reti, "Evaluation of Steel Hardenability By JM[®]-Test", 5th Hungarian Conference and Exhibition on Materials Science Testing and Informatics in Balatonfured (9-11th October 2005.), p.
